3	Section II, Clause 2.2 (iii), P-10	Tariff will be inclusive of subsidy/incentives available (if any)	We suggest that for us to submit competitive tariff, Maha-Metro should have clear approval of subsidy from MNRE. 5	3.4.3.b P-16	Profitability: The bidder should be a profit making entity in at least 2 years out of the last 5 years viz., FY - 2013-14, 2014-15, 2015-16, 2016-17 and 2017-18 for individual bidder and for every substantial partner In Case of JV/CONSORTIUM.	We request to please waive off this clause because for a solar project under <b>RESCO mode</b> , it usually takes 7-8 years to generate profit. As our company, had been incorporated in 2013. Thus, it has been only 5 years which is too early to generate profit from the existing projects. However, we have diverse portfolio of over <b>300+ MWp</b> spread across India.	Accepted. Please refer addendum.
6	3.5.2, P-17	"The aggregate equity share holding of the Successful Bidder, in proportion to their percentage participation in the issued and paid up equity share capital of the Project Company shall not be less than fifty one percent (51%) up to a period of Twenty Five (25) years from the date of commissioning of the installed Capacity of the Project".	The lock in period is for the entire project period i.e 25 years. Please note as per our experience with several tenders Such as MPUVNL, SECI, UPNEDA in the past the usual lock in period is Maximum upto 5 years. Thus, we would request you to please waive off the clause for maximum participation.	The clause has already been amended. Please refer clarification at Sr. No. 28 of corrigendum II
